Form Renovation can be performed on most steel-frame, plywood-face handset systems, including the Ellis Pro-Form, EMI Elite, Symons Steel-Ply and SureBuilt SurePly brands.

Form Renovation includes the following standard operations:

- Remove plywood from frames
- Inspect and sort frames
- Spotweld frames (incidental only as needed)
- Shotblast frames
- Paint frames (standard red powder-coat, optional colors available)
- Install new plywood in frames (standard 1/2" Birch or optional 1/2" HDO)

Form Renovation does not include the following:

- Inbound or outbound freight charges
- Welding (other than incidental)

Pricing and specifications subject to change without notice.
